THE UNIVERSITY OF MIAMI

A thesis submitted in partial fulfillment of  
the requirements for the degree of  
Master of Science

Subject

The Solvolysis of Butyl Bromide  
in Methanol-Water Mixtures

Shirley Jean Wright

This thesis has been  
approved by the Department  
of Chemistry and by  
the Committee on Graduate  
Study

J. Riis Owre  
Dean of the  
Graduate School

TABLE OF CONTENTS

PREFACE

It is a pleasure for me to acknowledge the wise counsel and tireless guidance of Dr. Jerome G. Morse without whose interest and patience this thesis could not have been completed.

Dedicated

I am happy to express my sincerest thanks to Dr. Warren H. Steinhilber whose consideration made possible my graduate studies at the University of Florida.

to  
My MOTHER and My FATHER

Whose Understanding, Support, and Sympathy

Were a Great Encouragement in This Work

and in All of My Endeavors

I have appreciated the suggestions of and discussions with several faculty members of the Department of Chemistry, among them, Drs. Harry P. Schultz and Jackson P. Steinhilber.

PREFACE

It is a pleasure for me to acknowledge the wise counsel and tireless guidance of Dr. Jerome G. Morse without whose interest and patience this thesis could not have been completed.

I am happy to express my sincerest thanks to Dr. Warren H. Steinbach whose consideration made it possible for me to pursue studies at the University.

I am greatly indebted to Drs. Alfred F. Mills and Carl P. Tebeau for their help in this work.

I have appreciated the suggestions of and discussions with several faculty members of the Department of Chemistry, among them Drs. Harry P. Schultz and Jackson P. Sickels.
