(U//FOUO) Do you know you can make SID *today* your browser homepage? Follow the directions below and "The In **SID** e Scoop" (SID *today*) will be the first thing you see when you open your browser.

(U//FOUO) <u>In Netscape</u> :

- Go to the SID *today* page.
- Then, on your Netscape browser window click on "edit".
- On the drop down menu at the bottom, click on "preferences".
- Choose the Navigator category.
- In the "Navigator starts with" box, select "Home page"
- In the Home page box click on "Use current page" (This is why you have to be on the SID *today* page when you start)
- Then OK at the bottom of the window.

(U//FOUO) Test it by closing Netscape and then restarting it. SID *today* should be what you see when Netscape comes up.

(U//FOUO) Now, if you want to make getting back to SID *today* as simple as a single click, add it to you bookmarks. Then edit your bookmarks and put the SID *today* bookmark on your personal toolbar. A SID *today* block should show up in the 3rd level toolbar at the top of your browser window.

(U//FOUO) <u>In Explorer</u> :

Â·
- Start on the SID *today* page. Â·
- Click on "Tools" Â·
- On the "Tools" menu choose "Internet Options". Â·
- Click the "General" tab. Â·
- In the Home page area, click "use current" and then OK. Â·
- Click on "Favorites" and add it to your favorites list.

(U//FOUO) As Martha would say... **Having SID *today* as your home page, it's a good thing!**
