

The Hitchhiker's Guide to Online Anonymity

Modern Crypto Rules

This page documents the rules for my Matrix room, `#moderncrypto:gnuradio.org`. Modern Crypto is part of the PSA community. See <https://anonymousplanet-ng.org/chatrooms-rules.html>

Rules:

- Keep it ~~legal~~ ethical
 - Ethics take precedent over laws. For example, laws that ban encryption deserve to be broken.
- English only
- Be respectful to each other
- Avoid FUD and/or disinformation
- Avoid gatekeeping
- No hate speech
 - This includes racism, sexism, homophobia, transphobia, and other anti-LGBTQ+ behavior
 - Hate speech will result in an insta-ban. *No exceptions.*
- No spam
- No trolling
- No doxxing
- No soliciting donations
- No NSFW content (no Porn, no Gore, no Hentai...)
- No pedophilia
- Avoid drifting too much off-topic or move to an off-topic room like `#bnonymity`
- *We are not lawyers. Behavior not covered by these rules may be handled at the discretion of any acting moderator(s).*
 - *We enforce the spirit of the rules, not the letter.*
 - *Citing technicalities or imprecisions in the definitions of rules won't save you.*

Violations of these rules may result in a PSA-wide ban.
